

HONEST COLLABORATION. HEALTHY DESIGN. HARD WORK.

Posted 2018/11/12

POSITION: Project Architect
(Positions are for Fulltime Employment)

EXPERIENCE: 5+ years

JOB DESCRIPTION: The candidates we are seeking will have at least 5 years of full-time experience and be a licensed. As a Project Architect, you will be responsible for leading project teams (of 2 or more junior staff) through all aspects of the design process – from programming through construction administration. Production work will apply and will require strong capabilities in Autodesk **Revit**. Candidates should have robust portfolios of **completed** work that communicates a high level of attention to detail and understanding of the construction process. A core knowledge of code requirements and specification writing is a must.

Requirements:

- Bachelor's Degree in Architecture
- Must be a Licensed Architect
- Strong Interpersonal and Problem Solving Skills
- Project Manager Experience
- Proficiency in Autodesk Revit Architecture
- Proficiency with Microsoft Office (Excel, Word, Outlook)
- Ability to work in a team environment

SALARY/BENEFITS: Salary will be based on experience. Benefits currently include Healthcare (Medical, Dental, and Vision).

Eligible candidates should submit a resume, with work samples, to info@alloy5.com. Files sizes should not exceed 5 MB.
